

I am appalled at Sinclair's decision to air propaganda against one of our presidential candidates for President of the United States. You all know the power of Mass Media in influencing people. This is totally illegal as well as immoral and I sincerely hope that you will put a stop to these shenanigans. Our democracy has already suffered terrible blows because of these "rednecks in suits".

The information business has already been cornered and the very few small independent news businesses are slowly disappearing. The Sinclair affair shows how fragile our democracy is and it is the duty of the FCC to safeguard our democracy by protecting the airwaves that belong not to Sinclair but to all of us. Thank you.
